Citation guidelines
As this is a serial book published annually, it has both ISSN and ISBN. ISSN links to the whole series of proceedings based on CBU International Conferences, while ISBN links to this specific issue in 2021. Each article also has its own unique permanent DOI link (number) located on the first article page. A digital object identifier (DOI) is a unique alphanumeric string to identify content and provide a persistent link to its location on the internet. All DOI numbers begin with a 10 and contain a prefix and a suffix separated by a slash. The prefix is the number of four or more digits assigned to organizations; the publisher assigns the suffix. DOI should be cited in the form of a full HTTPS link that includes http://dx.doi.org/. All articles were peer-reviewed.

Please use the following format to cite online articles (APA citation format):

Introduction
We had the great honor of organizing the CBU International Conference on Innovations in Science and Education 2021 in Prague, Czech Republic. The event was affected by the coronavirus pandemic as every other aspect of life since 2020 worldwide. Since 2013 the conference became an important international event in a cross-industry discussion about innovations in Education and Science.

CBUIC 2021 was organized by the CBU Research Institute, Unicorn University, and ISE Research Institute, all three located in Prague, Czech Republic. The CBU Research Institute published the proceedings.

Three cooperating organizations supported this conference. The participation was lower due to the coronavirus pandemic.

As every year, the purpose of CBUIC 2021 was to provide a forum for the participants to report and review innovative ideas with up-to-date progress and developments, discuss novel approaches to the application in their research areas and discuss challenges of doing science and education.

We sincerely hope that exchanging ideas on doing research, science, and improving education will help the participants, and international cooperation sharing the common interest will be enhanced.

On behalf of the Organization Committee of CBUIC 2021, we would like to heartily thank our cooperating organizations for all they have done for the conference. We would also like to thank the authors for their contribution to the proceedings; the participants and friends of CBUIC 2021, for their interest and efforts in helping us to make the conference possible; and the Editorial boards for their effective work and valuable advice, especially the CBUIC 2021 secretariat and the CBU RI staff, for their tireless efforts and outstanding services in preparing the conference and publishing the Proceedings.
